

## HE RECOMMENDS THIS HOME MADE MIXTURE

Noted Authority Gives Simple Remedy for Kidney and Bladder Troubles Which Anyone Can Prepare.

This is a simple home recipe now being made known in all the larger cities through the newspapers. It is intended to check the many cases of rheumatism, kidney and bladder troubles which have made so many cripples and invalids and weakenings of some of our brightest and strongest people.

The druggists here have been notified to supply themselves with the ingredients, and the sufferer will have no trouble to obtain them. The prescription is as follows: Fluid extract Dandelion, one-half ounce; Compound Kargon, one ounce, and Compound Syrup of Sarsaparilla, three ounces. Mix by shaking well in a bottle. The dose is one teaspoonful after each meal and at bedtime.

Recent experiments prove this simple mixture effective in rheumatism, because of its positive action upon the eliminative tissues of the kidneys. It compels these most vital organs to filter from the blood and system the waste impurities and uric acid which are the cause of rheumatism. It cleanses the kidneys, strengthens them and removes quickly such symptoms as backache, blood disorders, bladder weakness, frequent urination, painful scalding and discolored urine. It acts as a powerful stimulant to the entire kidney and bladder structure.

Those who suffer and are accustomed to purchase a bottle of medicine should not let a little inconvenience interfere with making this up.

S. Pollock, of Rincon, says that agricultural harvests of the Rincon region are of gilt edge prospect, there being more snow on the mountain sources of the Rio Grande river than for many seasons past. The river will run wide and deep with the snow melting and irrigation ditches will be full fed.

## PROVISIONS OF CAREY ACT NOW EXTENDED TO THE TERRITORIES

Having received a large number of inquiries regarding the provisions of the Carey act, The Optic has secured a full copy of the bill. It will be found to be of the utmost importance to New Mexico, and the credit for its being applicable to the territory is almost entirely due to the efforts of Governor Curry. The bill follows:

"That to aid the public land states in the reclamation of the desert lands therein, and the settlement, cultivation and sale thereof in small tracts to actual settlers, the secretary of the interior with the approval of the president, be, and hereby is, authorized and empowered, upon proper application of the state to contract and agree, from time to time, with each of the states in which there may be situated lands as defined by the act entitled 'An act to provide for the sale of desert land in certain states and territories,' approved March 3, 1877, and the act amendatory thereof, approved March

3, 1891, binding the United States to donate, grant and pay for the state free of cost for survey, the state such desert lands, not exceeding 1,000,000 acres in each state, as the state may cause to be irrigated, reclaimed, occupied, and not less than 20 acres of each 160 acre tract cultivated by actual settlers, within ten years next after the passage of this act, as thoroughly as is required of citizens who may enter under the said desert land law.

"Before the application of any state is allowed or any contract or agreement is executed or any appropriation of any of the land from the public domain is ordered by the secretary of the interior, the state shall file a map of the said land proposed to be irrigated which shall exhibit a plan showing the mode of contemplated irrigation, and which plan shall be sufficient to thoroughly irrigate and reclaim said land and prepare it to raise ordinary agricultural crops and shall also show the source of the

water to be used for irrigation and reclamation, and the secretary of the interior may make necessary regulations for the reservation of the lands to be reserved by the states to date from the date of filing of the map and plan of irrigation, but such reservation shall be of no force whatever if such map and plan of irrigation shall not be approved. That any state contracting under this section is hereby authorized to make all necessary contracts to cause the said lands to be reclaimed, and to induce their settlement and cultivation in accordance with and subject to the provisions of this section; but the state shall not be authorized to lease or dispose of said lands or to use or dispose of the same in any way whatever, except to secure their reclamation, cultivation and settlement.

"As fast as any state may furnish satisfactory proof according to such rules and regulations as may be prescribed by the secretary of the interior, that any of said lands are irrigated, reclaimed and occupied by actual settlers, patents shall be issued to the state or its agents for said lands, and the proceeds of the sale of said lands shall be paid to the state. That the act was amended and approved February 18, 1909, as follows:

"Be it enacted by the senate and house of representatives of the United States of America in congress assembled, that all the provisions of section 4 of the act of congress approved August 18, 1894, being chapter 301 to supplement to Revised Statutes of the United States, entitled 'An act making appropriations for sundry civil expenses of the government for the fiscal year ending June 30, 1895, and for other purposes,' and the amendments thereto, be, and the same are hereby extended to the territories of New Mexico and Arizona, and that said territories upon complying with the provisions of said act shall be entitled to have and receive all of the benefits therein conferred upon the states.

"Sec. 2. That this act shall be in full force and effect from and after its passage."

### SPRING ANNOUNCED BY WOMEN'S HATS

The advent of spring for the year 1909 occurred Sunday and was befittingly celebrated by a parade of feminine headgear that must have made glad the hearts of the milliners, and flattened out the pocketbooks of many of the mere men contingent.

Styles in ladies' bonnets this year are declared to be perfectly lovely by the women who can afford to indulge in them, but unsophisticated men are generally of the opinion that they are freaks. The bonnet architects have evolved some designs which make the dreams of an opium fiend seem mild in comparison. There is the funnel chapeau, which looks like a funnel turned upside down and draped with bright ribbons. Another conception that has set female society in amazes, is the soup tureen hat. The specifications on which this is built are obvious from the name applied to it. Then comes the coal scuttle hat and the camp kettle hat.

In addition to new styles in feminine headgear, the advent of spring also ushered in a large quantity of beer, and Dutch cocktails are now the style in drinks. Birds that spend the winter in the tropics are also flocking north, many of them getting this far in the spring migration toward the frigid zone.
